PROXY · LIVE NO API KEY URL ONLY

ZAI
Art Session

Art designing with the egui rebuild, powered entirely by the session preview URL — GLM-4.6 + CogView, zero keys.

HOW IT WAS MADE

1 GLM-4.6 polishes each rough idea into a production prompt

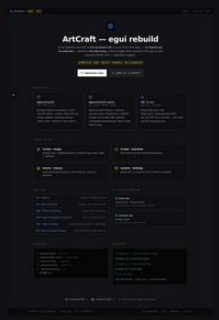

2 the polished prompt goes to the image endpoint (CogView)

3 every prompt + artwork is captured into this document

4 same endpoints the egui app calls — just base = preview URL

hosted gallery

GLM-4.6 COGVIEW LIVE

Use it in the egui app — URL only

No API key anywhere. The AI credentials live on the server; the app only ever sees the preview URL.

STEPS

1. Open the session preview (Preview Panel -> Open in New Tab).
2. Copy the address, e.g. https://xxxxx.space.z.ai
3. In ArtCraft (egui): System -> Settings -> Proxy URL.
4. Paste the URL and press Test.
5. Titlebar chip flips to PROXY · LIVE — mock mode is gone.
6. Image studio + Assistant now run on real GLM / CogView.

API key needed: none. Config stored app-side: just the URL.

WHAT THE URL PROVIDES (artcraft-proxy API, hosted)

```
GET    /health                  -> mode: live
GET    /api/v1/config           -> models + sizes, api_key_set: true
POST   /api/v1/sessions         -> new chat session
POST   /api/v1/sessions/{id}/chat -> real GLM-4.6 reply
POST   /api/v1/images           -> generated artwork (base64)
GET/DELETE /api/v1/sessions/{id}  -> history / delete
```

credentials: z-ai-web-dev-sdk on the server — never in the app

CYBERPUNK FOX POSTER

COGVIEW-4 1344x768 70.8S LIVE

PROMPT (polished by GLM-4.6)

A sleek cyberpunk fox with glowing neon fur and cybernetic implants standing in a rain-soaked neon-lit alley, holographic advertisements reflecting on wet pavement, cinematic lighting, detailed poster art style, vibrant purple and blue neon colors, high contrast, atmospheric fog, 8k resolution, digital masterpiece.

file: 01-cyberpunk-fox-poster.jpg · 131 KB · generated via preview URL

WATERCOLOR PEAKS

COGVIEW-4 1024x1024 70.0S LIVE

PROMPT (polished by GLM-4.6)

Serene mountain landscape at dawn with soft pastel hues, misty valleys, and reflective lake in foreground, delicate watercolor washes with visible brushstrokes, gentle morning light, peaceful atmosphere, dreamy composition, muted color palette with subtle highlights, textured watercolor paper background, artistic impression style, ethereal beauty.

ISOMETRIC STUDIO

COGVIEW-4 1152x864 60.8S LIVE

PROMPT (polished by GLM-4.6)

Isometric view of a cozy artist studio filled with lush green plants and hanging vines, warm golden light streaming through large windows, wooden workbench with art supplies and half-finished paintings, shelves lined with books and ceramics, comfortable reading nook with soft cushions, detailed interior design, soft shadows, vibrant yet harmonious color palette, digital illustration, meticulous details, inviting atmosphere.

file: 04-isometric-studio.jpg · 144 KB · generated via preview URL

GLM-4.6 prompt-polishing session

The real assistant conversation stored on the hosted proxy — identical to what the egui Assistant page renders.

YOU

Polish this into ONE image prompt: a cyberpunk fox in neon rain, poster art

GLM-4.6

A sleek cyberpunk fox with glowing neon fur and cybernetic implants standing in a rain-soaked neon-lit alley, holographic advertisements reflecting on wet pavement, cinematic lighting, detailed poster art style, vibrant purple and blue neon colors, high contrast, atmospheric fog, 8k resolution, digital masterpiece.

YOU

Polish this into ONE image prompt: a serene mountain landscape at dawn, watercolor

GLM-4.6

Serene mountain landscape at dawn with soft pastel hues, misty valleys, and reflective lake in foreground, delicate watercolor washes with visible brushstrokes, gentle morning light, peaceful atmosphere, dreamy composition, muted color palette with subtle highlights, textured watercolor paper background, artistic impression style, ethereal beauty.

YOU

Polish this into ONE image prompt: portrait of a stoic desert ranger, concept art

GLM-4.6
